

# SAFETY DATA SHEET

This safety data sheet was created pursuant to the requirements of:  
US OSHA Hazard Communication Standard (29 CFR 1910.1200) and Canada WHMIS  
2015 which includes the amended Hazardous Products Act (HPA) and the Hazardous  
Products Regulation (HPR)

Issuing Date 13-Apr-2021                      Revision Date 13-Apr-2021                      Revision Number 1

## 1. Identification

**Product identifier**

Product Name                      SAE 25W-140 Synthetic-Blend Marine Engine Oil

**Other means of identification**

Product Code(s)                      WCM

Synonyms                      None

**Recommended use of the chemical and restrictions on use**

Recommended use                      Lubricating Oil

Restrictions on use                      Avoid formation of mists.

**Details of the supplier of the safety data sheet**

**Supplier Address**

AMSOIL INC.  
14328-121A Ave  
Edmonton, AB T5L 2T2  
T: 877-830-4769

**Manufacturer Address**

AMSOIL INC.  
One AMSOIL Center  
Superior, WI 54880, USA  
T: +1 715-392-7101

**E-mail**                      compliance@amsoil.com

**Emergency telephone number**

Emergency telephone                      CHEMTREC: Within USA and Canada: 1-800-424-9300  
Outside the USA and Canada: +1 703-741-5970  
(collect calls accepted) 24/7

## 2. Hazard(s) identification

**Classification**

This product is not considered hazardous by either the US 2012 OSHA Hazard Communication Standard (29 CFR 1910.1200) or the Canadian Workplace Hazardous Material Information System (WHMIS 2015)

**Label elements**

**Hazard statements**

Not classified.

**Other information**

No information available.

3. Composition/information on ingredients

Substance

Not applicable.

Mixture

| Chemical name                                                                          | CAS No     | Weight-% | Hazardous Material Information Review Act registry number (HMIRA registry #) | Date HMIRA filed and date exemption granted (if applicable) |
|----------------------------------------------------------------------------------------|------------|----------|------------------------------------------------------------------------------|-------------------------------------------------------------|
| Hydrogenated base oil                                                                  | 64742-54-7 | 80-100   | -                                                                            | -                                                           |
| non hazardous ingredient                                                               | -          | 9.839    | -                                                                            | -                                                           |
| Phosphorodithioic acid, mixed O,O-bis(1,3-dimethylbutyl and iso-Pr) esters, zinc salts | 84605-29-8 | 0.1-1    | -                                                                            | -                                                           |

\*The exact percentage (concentration) of composition has been withheld as a trade secret.

Chemical Additions

The classification as a carcinogen does not apply as it can be shown that the substance(s) contain(s) less than 3% DMSO extract as measured by IP 346.

4. First-aid measures

Description of first aid measures

|                |                                                                                                                                                                                               |
|----------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| General advice | Get medical attention immediately if symptoms occur. Show this safety data sheet to the doctor in attendance.                                                                                 |
| Inhalation     | Remove person to fresh air and keep comfortable for breathing.                                                                                                                                |
| Eye contact    | Rinse thoroughly with plenty of water, also under the eyelids. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention if irritation develops and persists. |
| Skin contact   | Wash skin with soap and water. Take off contaminated clothing. Get medical attention if irritation develops and persists.                                                                     |
| Ingestion      | Rinse mouth. Do NOT induce vomiting. Never give anything by mouth to an unconscious person.                                                                                                   |

Most important symptoms and effects, both acute and delayed

Symptoms

May cause temporary eye irritation. May cause gastrointestinal discomfort if consumed in large amounts. Repeated or prolonged skin contact may cause skin irritation and/or dermatitis and sensitization in susceptible persons. Symptoms of overexposure are dizziness, headache, tiredness, nausea, unconsciousness and difficulty breathing.

Indication of any immediate medical attention and special treatment needed

Note to physicians

Treat symptomatically.

5. Fire-fighting measures

|                                                                |                                                                                                                                                                                  |
|----------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Suitable Extinguishing Media                                   | Water spray, carbon dioxide (CO2), dry chemical, alcohol-resistant foam. Use extinguishing measures that are appropriate to local circumstances and the surrounding environment. |
| Unsuitable extinguishing media                                 | Do not use a solid water stream as it may scatter and spread fire.                                                                                                               |
| Specific hazards arising from the chemical                     | Containers can burst or explode when heated, due to excessive pressure build-up. Thermal decomposition can lead to release of irritating gases and vapors.                       |
| Hazardous combustion products                                  | Carbon monoxide, carbon dioxide and unburned hydrocarbons (smoke).                                                                                                               |
| Explosion data                                                 |                                                                                                                                                                                  |
| Sensitivity to mechanical impact                               | None.                                                                                                                                                                            |
| Sensitivity to static discharge                                | None.                                                                                                                                                                            |
| Special protective equipment and precautions for fire-fighters | Firefighters should wear self-contained breathing apparatus and full firefighting turnout gear. Use personal protection equipment.                                               |

6. Accidental release measures

Personal precautions, protective equipment and emergency procedures

|                          |                                                                                                                 |
|--------------------------|-----------------------------------------------------------------------------------------------------------------|
| Personal precautions     | Use personal protective equipment as required. See section 8 for more information. Ensure adequate ventilation. |
| For emergency responders | Use personal protection recommended in Section 8.                                                               |

Methods and material for containment and cleaning up

|                             |                                                                                                                                                                                                                                                                                                                |
|-----------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Methods for containment     | Prevent further leakage or spillage if safe to do so.                                                                                                                                                                                                                                                          |
| Methods for cleaning up     | Contain and collect spillage with non-combustible absorbent material, (e.g. sand, earth, diatomaceous earth, vermiculite) and place in container for disposal according to local / national regulations (see Section 13). Clean contaminated surface thoroughly. After cleaning, flush away traces with water. |
| Reference to other sections | For additional information see: Section 8: Exposure controls/personal protection; Section 12: Ecological information; Section 13: Disposal considerations.                                                                                                                                                     |

7. Handling and storage

Precautions for safe handling

|                         |                                                                                                                                                                                                                                                   |
|-------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Advice on safe handling | Handle in accordance with good industrial hygiene and safety practice. Avoid contact with used product. Do not eat, drink or smoke when using this product. Take off contaminated clothing and wash before reuse. Wash thoroughly after handling. |
|-------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

Conditions for safe storage, including any incompatibilities

|                    |                                                                                                                                                                                                             |
|--------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Storage Conditions | Keep container tightly closed in a dry and well-ventilated place. Do not reuse empty containers. Store away from incompatible materials. See section 10 for more information. Protect from physical damage. |
|--------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

8. Exposure controls/personal protection

Control parameters

|                 |                                                                                                                                                                                            |
|-----------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Exposure Limits | Under conditions which may generate mists, the following exposure limits are recommended: Long-term exposure limit (8-hour TWA): 5 mg/m³. Short-term exposure limit (15-minute): 10 mg/m³. |
|-----------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

|               |           |          |       |
|---------------|-----------|----------|-------|
| Chemical name | ACGIH TLV | OSHA PEL | NIOSH |
|---------------|-----------|----------|-------|

|                                     |                                     |   |   |
|-------------------------------------|-------------------------------------|---|---|
| Hydrogenated base oil<br>64742-54-7 | TWA: 5 mg/m³(inhalable<br>fraction) | - | - |
|-------------------------------------|-------------------------------------|---|---|

Biological occupational exposure limits

Appropriate engineering controls

Engineering controls                      Ensure adequate ventilation, especially in confined areas.

Individual protection measures, such as personal protective equipment

|                                |                                                                                                                                                                                                                  |
|--------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Eye/face protection            | If there is a risk of contact:. Wear safety glasses with side shields (or goggles).                                                                                                                              |
| Hand protection                | If there is a risk of contact:. Wear suitable gloves. Ensure that the breakthrough time of the glove material is not exceeded. Refer to glove supplier for information on breakthrough time for specific gloves. |
| Skin and body protection       | If there is a risk of contact:. Wear suitable protective clothing.                                                                                                                                               |
| Respiratory protection         | No protective equipment is needed under normal use conditions. If exposure limits are exceeded or irritation is experienced, ventilation and evacuation may be required.                                         |
| General hygiene considerations | Handle in accordance with good industrial hygiene and safety practice. Do not eat, drink or smoke when using this product. Wash hands before breaks and immediately after handling the product.                  |

9. Physical and chemical properties

Information on basic physical and chemical properties

|                |                          |
|----------------|--------------------------|
| Appearance     |                          |
| Physical state | Liquid                   |
| Color          | Amber                    |
| Odor           | Mild hydrocarbon         |
| Odor threshold | No information available |

| Property                                | Values                                   | Remarks • Method             |
|-----------------------------------------|------------------------------------------|------------------------------|
| pH                                      |                                          | No data available            |
| Melting point / freezing point          |                                          | No data available            |
| Initial boiling point and boiling range |                                          | No data available            |
| Flash point                             | 254 °C / 489.2 °F                        | Cleveland Open Cup ASTM D 92 |
| Evaporation rate                        |                                          | No data available            |
| Flammability                            |                                          | No data available            |
| Flammability Limit in Air               |                                          |                              |
| Upper flammability or explosive limits  |                                          | No data available            |
| Lower flammability or explosive limits  |                                          | No data available            |

10. Stability and reactivity

|                                    |                                                                                                                                              |
|------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------|
| Reactivity                         | None under normal use conditions.                                                                                                            |
| Chemical stability                 | Stable under normal conditions.                                                                                                              |
| Possibility of hazardous reactions | None under normal processing.                                                                                                                |
| Conditions to avoid                | None known based on information supplied.                                                                                                    |
| Incompatible materials             | None known based on information supplied.                                                                                                    |
| Hazardous decomposition products   | Thermal decomposition can lead to release of irritating gases and vapors. Carbon monoxide, carbon dioxide and unburned hydrocarbons (smoke). |

11. Toxicological information

Information on likely routes of exposure

|              |                                                                   |
|--------------|-------------------------------------------------------------------|
| Inhalation   | Specific test data for the substance or mixture is not available. |
| Eye contact  | Specific test data for the substance or mixture is not available. |
| Skin contact | Specific test data for the substance or mixture is not available. |
| Ingestion    | Specific test data for the substance or mixture is not available. |

Symptoms related to the physical, chemical and toxicological characteristics

|          |                                                                                                                                                                                                                                                                                                                                                             |
|----------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Symptoms | May cause temporary eye irritation. Repeated or prolonged skin contact may cause skin irritation and/or dermatitis and sensitization in susceptible persons. Ingestion may cause gastrointestinal irritation, nausea, vomiting and diarrhea. Symptoms of overexposure are dizziness, headache, tiredness, nausea, unconsciousness and difficulty breathing. |

Other adverse effectsNo information available.

13. Disposal considerations

Waste treatment methods

Waste from residues/unused productsDispose of in accordance with local regulations, Dispose of waste in accordance with environmental legislation.

Contaminated packagingDo not reuse empty containers.

California waste informationThis product contains one or more substances that are listed with the State of California as a hazardous waste.

14. Transport information

DOTNot regulated

TDGNot regulated

IATANot regulated

IMDGNot regulated

15. Regulatory information

Safety, health and environmental regulations/legislation specific for the substance or mixture

International Regulations

The Montreal Protocol on Substances that Deplete the Ozone LayerNot applicable

The Stockholm Convention on Persistent Organic PollutantsNot applicable

The Rotterdam ConventionNot applicable

| Polyether                                                                              | CONFIDENTIAL |         |        |
| Phosphorodithioic acid, mixed O,O-bis(1,3-dimethylbutyl and iso-Pr) esters, zinc salts | 84605-29-8   | Present | Active |
| Hydrogenated base oil                                                                  | 64742-53-6   | Present | Active |
| Toluene                                                                                | 108-88-3     | Present | Active |
| Benzene                                                                                | 71-43-2      | Present | Active |
| Naphthalene                                                                            | 91-20-3      | Present | Active |

\*Contact supplier for details. One or more substances in this product are either not listed on the US TSCA inventory, listed on the confidential US TSCA inventory or are otherwise exempted from inventory listing requirements

US Federal Regulations

SARA 313

Section 313 of Title III of the Superfund Amendments and Reauthorization Act of 1986 (SARA). This product contains a chemical or chemicals which are subject to the reporting requirements of the Act and Title 40 of the Code of Federal Regulations, Part 372.

| Chemical name                                                                                       | SARA 313 - Threshold Values % |
|-----------------------------------------------------------------------------------------------------|-------------------------------|
| Phosphorodithioic acid, mixed O,O-bis(1,3-dimethylbutyl and iso-Pr) esters, zinc salts - 84605-29-8 | 1.0                           |

SARA 311/312 Hazard Categories

Should this product meet EPCRA 311/312 Tier reporting criteria at 40 CFR 370, refer to Section 2 of this SDS for appropriate classifications.

CWA (Clean Water Act)

This product contains the following substances which are regulated pollutants pursuant to the Clean Water Act (40 CFR 122.21 and 40 CFR 122.42).

| Chemical name                                                                                     | CWA - Reportable Quantities | CWA - Toxic Pollutants | CWA - Priority Pollutants | CWA - Hazardous Substances |
|---------------------------------------------------------------------------------------------------|-----------------------------|------------------------|---------------------------|----------------------------|
| Phosphorodithioic acid, mixed O,O-bis(1,3-dimethylbutyl and iso-Pr) esters, zinc salts 84605-29-8 | -                           | X                      | -                         | -                          |

CERCLA

This material, as supplied, does not contain any substances regulated as hazardous substances under the Comprehensive Environmental Response Compensation and Liability Act (CERCLA) (40 CFR 302) or the Superfund Amendments and Reauthorization Act (SARA) (40 CFR 355). There may be specific reporting requirements at the local, regional, or state level pertaining to releases of this material.

US State Regulations

California Proposition 65

This product contains the following Proposition 65 chemicals:

| Chemical name         | California Proposition 65                        |
|-----------------------|--------------------------------------------------|
| Toluene - 108-88-3    | Developmental                                    |
| Benzene - 71-43-2     | Carcinogen<br>Developmental<br>Male Reproductive |
| Naphthalene - 91-20-3 | Carcinogen                                       |

U.S. State Right-to-Know Regulations

| Chemical name                                                                                     | New Jersey | Massachusetts | Pennsylvania |
|---------------------------------------------------------------------------------------------------|------------|---------------|--------------|
| Phosphorodithioic acid, mixed O,O-bis(1,3-dimethylbutyl and iso-Pr) esters, zinc salts 84605-29-8 | X          | -             | X            |
| Hydrogenated base oil 64742-53-6                                                                  | -          | X             | -            |
| Toluene 108-88-3                                                                                  | X          | X             | X            |
| Benzene 71-43-2                                                                                   | X          | X             | X            |
| Naphthalene 91-20-3                                                                               | X          | X             | X            |
